[The symmetry, inferable from Bogoliubov transformation, between processes induced by a mirror in two-dimensional and a charge in four-dimensional space-time](#)

Date: July 2003

3/6,K/1 (item 1 from file: 2)

08880540

**Title:** The symmetry, inferable from Bogoliubov transformation, between processes induced by a mirror in two-dimensional and a charge in four-dimensional space-time

**Country of Publication:** Russia

**Publication Date:** July 2003

**INSPEC Update Issue:** 2004-009

**Copyright:** 2004, IEE

**Abstract:** ... of the self-action changes and vacuum-vacuum amplitudes for an accelerated mirror in two-dimensional space-time and a charge in four-dimensional space-time. Both invariants of the Lorentz group, spin and mass, play an essential role in the established symmetry. The symmetry embraces not only the processes of real quanta radiation, but also the processes of the mirror...

[Evolutionary dynamics of the transitions across the Nash equilibria of a tacit coordination game](#)

Date: 2002

3/6,K/2 (Item 2 from file: 2)

08471074

**Title:** Evolutionary dynamics of the transitions across the Nash equilibria of a tacit coordination game

**Country of Publication:** France

**Publication Date:** 2002

**INSPEC Update Issue:** 2002-049

**Copyright:** 2002, IEE

**Abstract:** ...any equilibrium can be reached. However, the time spent in high effort equilibria is negatively related to the number of players. Finally, regardless of the **group** size, players **play** best response actions most of the **time**. The dynamics of our model capture the main features of the behavior observed in the experiments with human subjects. As the evolutionary dynamics generate persistent...

[A fuzzy GSS framework for organizational knowledge acquisition](#)

**Date:** Oct. 2000

3/6,K/3 (Item 3 from file: 2)

07725052

**Title:**

**Country of Publication:** UK

**Publication Date:** Oct. 2000

**INSPEC Update Issue:** 2000-040

**Copyright:** 2000, IEE

**Abstract:** ...that organizational knowledge management should pursue the achievement of the business goal by delivering relevant and useful information to the right person at the right **time**. **Group** support systems (GSS) can **play** an important role in transferring scattered information into meaningful business knowledge for supporting strategic corporate decision-making. The study proposes a fuzzy GSS framework for...

[A multimedia synchronization protocol for multicast groups](#)

**Date:** 2000

3/6,K/4 (Item 4 from file: 2)

07735619

**Title:**

**Book Title:** Proceedings of the 26th Euromicro Conference. EUROMICRO 2000. Informatics: Inventing the Future

**Country of Publication:** USA

**Publication Date:** 2000

**INSPEC Update Issue:** 2000-041

**Copyright:** 2000, IEE

**Abstract:** ...different initial playback times. The author proposes a method consisting of intra-stream and inter-client synchronization mechanisms. It allows different members of a multicast **group** to **playback** media units at the same **time** and in a continuous manner. The mechanism can be used in networks having unknown delay bounds. It allows receivers to be synchronized for media unit...

Within-group variation in the ability of children with specific language impairment to access and participate in an ongoing interaction

Date: 2002

3/6,K/19 (Item 19 from file: 35)

01929792 ORDER NO: AADAA-IMG75567

Within-group variation in the ability of children with specific language impairment to access and participate in an ongoing interaction

Year: 2002

...SLI groups required a longer period of time to achieve access-initiation. Following access, children in both SLI groups were addressed significantly less by their **play** partners, participated in less **group play** and engaged in more individual **play** and onlooking behavior. Among the SLI **group**, language levels were negatively related to the **time** children required to achieve their first successful access and first access-initiation. Expressive language levels were positively related to the percentage of utterances children produced...
